

## SOFTWARE LICENSE AGREEMENT

**WARNING NOTICE: THIS IS A LEGAL AGREEMENT.** This agreement will supersede all prior proposals, including any terms included in any purchase order or similar document. If you do not agree to these provisions, return the complete software package to the seller from whom you obtained it and the purchase price of this license will be refunded. This agreement is binding upon any authorized transferee.

### **THE PRODUCT IS PROTECTED BY COPYRIGHT LAW AND INTERNATIONAL TREATY. UNAUTHORIZED COPYING IS PROHIBITED.**

1. **Grant of License.** Prolifics, Inc. ("Owner") hereby grants to you ("Licensee") a non-exclusive license (the "License") for the use of the enclosed computer software program and/or documentation (the "Product"), subject to the terms and conditions described below. Title to the Product and all copies thereof which Licensee is permitted to make hereunder shall at all times remain with the Owner, and all proprietary rights of whatever nature with respect thereto shall be and remain the exclusive property of Owner.

2. **Use of the Product.** The term of a trial license shall commence upon Licensee's receipt of Product and shall continue for a period of forty-five (45) days thereafter ("Evaluation Period"), unless earlier terminated. Owner may extend the Evaluation Period in its discretion. Licensee agrees to use the trial license solely for purpose of evaluating Product and shall not redistribute any portion of the Product or derivatives thereof that were produced by any of the Product's utilities. Upon the earlier of: (i) termination of this Agreement or (ii) if the Trial License does not become a permanent license, Licensee shall either return or destroy, at the Owner's option, all copies of the licensed Product and any derivatives or work product prepared with the trial license and shall certify in writing that all such copies have been so returned or destroyed. In addition, Licensee may not disclose the results of any evaluation, benchmark or functionality test of the Product to any third-party without the prior written consent of Owner. If the License is network-based, Licensee has the right under the License to (i) possess the Product software on one or more computers operating as network servers (the "Servers"), and (ii) possess and utilize the Product software on any computer networked with the Servers, so long as Licensee has also purchased a Product license for that computer. If the License is not network-based, Licensee has the right under the License to install, access and utilize the Product software on a single designated computer or network node of the type identified at the time the License is granted. If the License is token-based, the aggregate number of concurrent uses of the Product at any one time may not exceed the number of available tokens. In each case, Licensee has the right to download or copy the Product software to the extent necessary for such permitted use. If the Product is JAM/ReportWriter, JAM/Web Builder or a JAM database driver, Licensee must also have a duly licensed copy of the JAM software product installed on the platform on which the Product is to be utilized. If the Product is a JAM/Web Application Server database driver, Licensee must also have a duly licensed copy of the JAM/Web Application Server product installed on the platform on which the Product is to be utilized.

Licensee may copy the Product software to main computer storage (provided the original copy is kept solely for backup or archival use), and may make copies of the Product software solely for backup or archival purposes. Licensee expressly waives any right to utilize any such copy for any other purpose. If the Product documentation is supplied in hard-copy form, Licensee may not copy or otherwise reproduce such documentation, except that Licensee may copy and sublicense to others the portion of the Product documentation dealing exclusively with the End-Use Utilities (as hereinafter defined) in connection with the sale, lease or license of applications developed with the Product, as hereinafter permitted. If the Product documentation is provided in on-line form, Licensee is permitted to print out and duplicate the documentation freely, so long as such copies are not distributed or made available to any third party (except that Licensee may copy and sublicense to others the portion of such documentation dealing exclusively with the End-Use Utilities in connection with the sale, lease or license of applications developed with the Product). Licensee shall conspicuously place copyright notices in Owner's name on all such copies.

If the Product is Prolifics, Panther, JAM, JAM/ReportWriter or JAM/Web Builder, Licensee shall have the right to sell, lease, license or otherwise distribute applications created with the Product for use on computers other than those licensed hereunder so long as such applications do not include any of the Development Utilities or the Development Libraries, in any form, whether linked or unlinked (such applications may, however, include forms and other data structures created with the Development Utilities). The Development Utilities are the programs within the Product used to facilitate the development of applications, and the Development Libraries are the routines used to create modified versions of the

Development Utilities, including, for example, those in libraries or directories with names of the form \*libjx\*, where \* represents zero or more other characters. The other libraries in the Product may be included, so long as they are statically linked into the application or they are distributed in conjunction with an application which dynamically links with them. In addition, the End-Use Utilities, as hereinafter defined, may be included as stand-alone programs within any such application.

If the Product is Prolifics Rose Panther Link, there are no End-Use Utilities (i.e., you may not redistribute any dynamic linked libraries or other components of the Rose Panther Link).

The Development Utilities include the following utilities in the Panther, Prolifics or JAM Client/Development distributions. These utilities are for development only and cannot be redistributed for deployment (note that not all products include all of these utilities):

End-Use Utilities exclude Development Utilities and Development Libraries, but include executable files, along with their supporting libraries or other supporting files, that (a) allow the end-user to customize the configuration of an application developed with the Product, typically for use with different terminal types or other input/output devices (this includes any application configuration files that may be used as input to these executable files or their pre-generated output files); (b) allow the end-user to launch, manage, monitor, or maintain the runtime state of an application developed with the Product; (c) gather information that may be useful to Prolifics in providing maintenance services or licensing; or (d) configure or enable licensing for the Product (excluding license files themselves).

End-Use Utilities include the following utilities in Panther, Prolifics or JAM product distributions. These utilities can be redistributed for deployment, along with any shared libraries or DLLs required to run them, provided that such shared libraries or DLLs are not themselves Development Libraries:

Licensee has no right to use, disclose, reproduce, modify or alter the Product, except as expressly provided herein. Licensee may not, except as expressly provided herein, sublicense, lease, rent or transfer the Product, in whole or in part, to any person or entity.

Licensee acknowledges that the source code to the Product contains trade secrets of Owner. Except as may be required by applicable law, Licensee is prohibited from creating or attempt to create, or permitting others to create or attempt to create, by reverse engineering, disassembly, decompilation or otherwise, the source code for the Product from the object code or from other information made available under the License. Licensee agrees to notify Owner immediately of the unauthorized possession or use of any items supplied under the License. Licensee will promptly furnish full details of such possession or use to Owner, will assist in preventing the recurrence of such possession or use and will cooperate with Owner to protect its proprietary rights. Licensee's compliance with this paragraph shall not be construed in any way as a waiver of any right of Owner to recover damages from, or obtain other relief against, Licensee. Licensee acknowledges and agrees that the Product is of an extraordinary and unique character and that the injury which would be suffered by Owner in the event of a breach by Licensee of any of its obligations would be irreparable and otherwise of a character which could not be fully compensated for solely by recovery of monetary damages. Accordingly, Licensee agrees that, without in any way limiting the other rights or remedies of Owner, Owner shall be entitled to an injunction restraining any

violation or threatened violation of the provisions of this Agreement, or any other appropriate equitable relief, without any bond or other security being required and without being required to show any actual damage or that monetary damages would not provide an adequate remedy.

The License may be transferred in certain instances if the Licensee complies with certain terms and conditions (which may, in some cases, involve the payment of a transfer fee). Owner will supply its current transfer policies upon request. Notwithstanding anything in this paragraph, Licensee may not transfer the Product to a user in a country other than the one to which Owner has shipped it.

**3. Limited Warranty.** The Product is provided "as is" without warranty of any kind from Owner, except as expressly provided below. Owner has no obligation to Licensee for any defect in the Product, except as expressly provided below, or for their failure to meet Licensee's needs. Owner warrants that the media on which the Product is recorded will be free from defects in materials and workmanship under normal use and service for a period of ninety (90) days from the date the Product is first delivered to Licensee, and Owner hereby limits the duration of any implied warranties on the media to such period. Owner's entire liability and Licensee's exclusive remedy as to the media shall be, at Owner's option, either (a) return of the purchase price or (b) replacement of the media. If failure of the media has resulted from accident, abuse, or misapplication, Owner shall have no responsibility to replace the media or refund the purchase price. Any replacement media will be warranted for the remainder of the original warranty period or thirty (30) days, whichever is longer. **THE ABOVE IS THE ONLY WARRANTY OF ANY KIND THAT IS MADE ON THE PRODUCT. ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE EXPRESSLY DISCLAIMED BY OWNER.** There is no warranty as to title or against infringement. No oral or written information or advice shall create a warranty or increase the scope of this warranty, and Licensee may not rely thereon. Owner shall not be liable to anyone for special, collateral, indirect, incidental, or consequential damages, even if Owner has been advised of the possibility of such damages. Such excluded damages include, without limitations, cost of removal and reinstallation, outside computer time, labor costs, loss of goodwill, loss of profits, loss of savings, loss of use, loss or corruption of data or interruption of business or other economic loss. Licensee expressly agrees that Owner's total liability for all actions or claims of any kind arising out of or relating to this Agreement, whether based on contract, tort (including but not limited to strict liability and negligence), or other legal or equitable grounds, shall be limited to money damages, and the aggregate amount thereof shall in no event exceed the amount paid by Licensee for the copy of the Product licensed hereby, regardless of any finding that the remedies provided herein failed of their essential purpose.

**4. Termination of License.** The License is effective until terminated. If Licensee breaches any provision of this Agreement, the License is automatically terminated without notice, and all of Licensee's rights hereunder shall immediately cease. Licensee hereby agrees upon such termination to destroy the Product, together with all copies. The termination of the License will not release Licensee from any of the restrictions of this Agreement concerning use, possession, copying, or disclosure of the Product or any of Owner's trade secrets or other proprietary rights, which shall survive such termination and continue forever.

**5. Compliance with Export Administration Act.** Licensee agrees that it shall not allow the Product to be shipped to or possessed in any country in violation of the U.S. Export Administration Act.

**6. Governing Law.** This Agreement will be governed by the internal laws of the State of New York, without regard to principles of conflicts of law, and by applicable federal and international trademark and copyright laws.

**7. US Government Rights.** The Products and related Documentation provided shall be "commercial computer software" and "commercial computer software documentation," respectively, as such terms are used in 48 C.F.R. 12.212 of the Federal Acquisition Regulations ("FAR") and its successors and 48 C.F.R. 227.7202 of the Department of Defense FAR Supplement ("DFARS") and its successors. In accordance with FAR 12.212 or DFARS 227.7202, as applicable, the Products and related Documentation are provided to all U.S. Government end-users with only those rights set forth in this Agreement.

**THIS AGREEMENT IS THE COMPLETE AND EXCLUSIVE STATEMENT OF THE AGREEMENT BETWEEN LICENSEE AND OWNER RELATING TO THE SUBJECT MATTER HEREOF, WHICH SUPERSEDES ANY PROPOSAL OR PRIOR AGREEMENT, ORAL OR WRITTEN. ANY MODIFICATION OF THIS AGREEMENT MUST BE IN WRITING AND SIGNED BY OWNER.**
